August 10, 2010 will be the Public Hearing for Central Marina, and August 13, 2010 will be the Public Hearing for the Ord Community.

G. Approve the Expenditures for the Month of May 2010:

Director Moore questioned why three separate checks were issued to the Paul Davis Partnership on the same day. Mr. Prasad answered that there were about twenty invoices that were paid with those checks. Mr. Carl Niizawa, Deputy General Manager/Deputy Engineer, answered that there were different invoice dates for the three checks. Director Moore questioned why a single check wasn't written for all the invoices. President Nishi answered that there was a concern that the work wasn't getting done and invoices weren't getting paid. On May 4th, he requested that the checks get cut to get the project moving along and taking care of the economic situation of this area.

Agenda Item 8-G (continued):

Director Moore commented that he understood the reason to cut the checks, but not separate checks. President Nishi answered that large checks required two signatures and it was easier this way. He stated that he had met with Paul Davis and was going to hand deliver the checks. Mr. Prasad clarified that checks over \$25,000 require two signatures, one staff and one Director's signature. By cutting smaller checks, staff was able to sign the checks without a Director's signature. Director Moore voiced his concern that this action circumvented District policy.

Director Moore commented that Friedman Dumas received another large check from the District, this one for over \$109,000.

Director Gustafson made a motion to approve the expenditures for May 2010. Vice President Lee seconded the motion. The motion was passed.

Mr. Niizawa introduced this item. Director Burns asked who would do the inspections on the project. Mr. Niizawa answered that a temporary staff member would be hired to perform inspections on this project.

Director Moore asked if the site improvements, allocated at \$680,000, were complete and what was the final cost. Mr. Brian True, Capital Projects Manager, answered that the improvements were about 80% complete and that cost shouldn't go much higher at completion. President Nishi asked if the improvements were for the entire site. Mr. True answered that the improvements were being completed in three phases and this was phase two. Phase three will be for the remaining buildings.

Ms. Conley questioned why the District was building this office for FORA when they will sunset in 2014, and why couldn't any of the vacant buildings in Fort Ord be used? President Nishi asked Ms. Conley to make an appointment with the General Manager and he could provide her with the answers.

C. Consider Adoption of Resolution No. 2010-39 to Provide for the Creation of the Imjin Office Park Owners Association and to Appoint Two Owners Association Directors:

Mr. True introduced this item and stated that appointments can be made now or at a later time.

Agenda Item 9-C (continued):

President Nishi commented that the appointments needed to be made because there is a meeting scheduled. Mr. True answered that the meeting was tentative and if appointments were not made tonight, the meeting could be rescheduled.

President Nishi asked who would be funding the District Counsel's fees for the Imjin Office Park Owners Association (IOPOA). Mr. Lloyd Lowrey, Legal Counsel, commented that it was his understanding that since the District will have two of the four votes of the IOPOA, the District would be lending the District's Legal Counsel for the first meeting and will be reimbursed by the group as a whole. President Nishi stated that things should be in order before attending any meetings instead of doing it haphazardly.

Director Moore commented that the Board of Directors has not seen the Covenants, Conditions, Restrictions, and Reciprocal Easement Agreement (CCRs), only the suggested amendments. He would have liked to see the CCRs so the Board could better understand what the rules are. President Nishi voiced his concerns over some improvement decisions that are being made and if they are cost effective.

Director Gustafson volunteered to be appointed as an IOPOA Director and suggested that the General Manager or designee be the other.

Director Gustafson made a motion to adopt Resolution No. 2010-39 to provide for the creation of the Imjin Office Park Owners Association and to appoint Director Gustafson and the General Manager or designee as Owners Association Directors. Director Moore asked for clarification in the CCRs where they mention the tie-breaking vote will be the FORA Executive Officer. He then asked what happens when FORA sunsets? Mr. True answered that before FORA sunsets, another disinterested third party organization will be selected by the IOPOA to be the tie-breaker. Vice President Lee seconded the motion. The motion was passed.

Mr. True introduced this item and provided the Board of Directors with a photo of the exposed intake well vault. Director Moore asked why this item had a 37% contingency amount. Mr. True answered that it was because the contract amount was small and there could be additional costs such as: 1) if the State Parks has a problem with the sand covering the vault; 2) if the Department of Public Health has any unseen inspection fees; and, 3) it is a difficult site to work on. Director Burns asked if there would be GPS coordinates of the vault. Mr. True answered that there would definitely be GPS coordinates.

Vice President Lee made a motion to adopt Resolution No. 2010-41 to authorize the construction contract with Maggiora Bros. Drilling, Inc. to remove the Beach Intake Well Vault and to cut and cap the well casing within a not-to-exceed project work amount of \$28,000. Director Gustafson seconded the motion. Mr. Heitzman stated that it would be valuable for staff. Mr. Lowrey suggested that since the committees have been on hiatus, it would be good for staff to bring this item back next month with the composition and charge for each committee. He added that there should be a list of what the committee does, who serves on the committee and how members are appointed.

President Nishi asked to bring this back next month with a composition and charge for each committee.

He would like the communication to be clearer to allow everyone a chance to comment on their availability.

Director Moore commented that he was also unable to attend the special meeting and did not see the urgency in holding that meeting. He stated that there were not many items on tonight's agenda that couldn't have been handled at the June 8th meeting. Vice President Lee thanked staff for giving excellent presentations and preparing this work on these items to allow the Board to get things done in a timely manner.

President Nishi commented that he would like the General Manager to let the Board know when compliments towards staff are received so the Board could do something to show appreciation to the employees for their outstanding work. President Nishi noted that no one was notified of the special meeting because it was the President's decision to hold the meeting in an effort to get the City of Marina to comply, and it was successful.
