## **Clothes Washer, Toilet, and Water-free Urinal Rebate Program**

- Marina Coast Water District provides a \$50 rebate for the retrofitting of 5 and 3.5 gallon per flush toilets with ultra low-flow toilets having a flush capacity of 1.6 gallons. This rebate is available through June 30, 2007 after which time it will be discontinued.
- A rebate equal to the purchase price of the toilet, up to \$125 is available for the retrofitting of older 5, 3.5, and 1.6 gallon per flush toilets to high-efficiency toilets (single and dual-flush) having a flush capacity of 1.3 gallons or less.
- A rebate equal to the purchase price, up to \$125 is also available for conventional urinal conversions to water-free urinals.
- Clothes washers achieving an EnergyStar rating are eligible for a \$50 rebate.
- Receipts older than one year will not be accepted.
- Customer requests for over twenty rebates must be pre- approved by the General Manager.
- Rebates are limited and subject to available funds.
- Rebates are only available for customers and properties within the Marina Coast Water District service areas.

### **To Receive a Rebate:**

- Save your original purchase receipt.
- Pick up a rebate form from our offices or download one from the MCWD website at [www.mcwd.org](http://www.mcwd.org).
- Fill out the rebate form, attach the original receipt, and mail or drop off the form and receipt at our main office located at 11 Reservation Road, Marina CA 93933.

### **Retrofit Requirements for Property Transfers**

The following plumbing retrofits are required, prior to the close of title, for the sale or transfer of existing residential or commercial property in the Marina Coast Water District.

- All existing toilets must be retrofitted with complete toilet assemblies (tank and bowl) having a maximum flush capacity of 1.6 gallons per flush or less. No flush devices, partial toilet conversions, or flow restriction devices of any kind will be accepted. Conventional urinals must be retrofitted to water-free urinals.
- All showerheads must be retrofitted with low-flow showerheads with a maximum flow capacity of 2.5 gallons per minute or less. These low-flow showerheads must also have a shut-off button. Flow restrictors do not satisfy this requirement.
- Existing laundry facilities must utilize high-efficiency clothes washers using a maximum of 8.5 gallons of water per cubic foot of laundry.
