MEMORANDUM

Marina Coast Water District

DATE: May 20, 2013

TO: Board of Directors

FROM: Kelly Cadiente, Director of Administrative Services

SUBJECT: Budget Summary

<u>Introduction.</u> The purpose of this Budget Summary is to provide an overview of the FY 2013–2014 Budget document and the key assumptions used in developing this Budget.

The Draft Budget includes 6 separate cost centers:

- Marina Water
- Marina Wastewater Collection (Sewer)
- Ord Community Water
- Ord Community Wastewater Collection (Sewer)
- Recycled Water
- Regional Project

In accordance with Article 7 of the Water Wastewater Facilities Agreement between MCWD and FORA, the District maintains separate cost centers to ensure that revenues and expenses are appropriately segregated and maintained for the Marina systems, the Ord Community systems, and the accruing costs for the Regional Water Augmentation Project. On October 25, 2006, the Board adopted Ordinance No. 43 which also requires the cost centers remain separate after the expiration of the Agreement between MCWD and FORA.

District costs that are not dedicated to a specific cost center are shared among the four primary cost centers - Marina Water, Marina Sewer, Ord Community Water, and Ord Community Sewer. Sharing of these expenses, in turn, creates efficiencies and cost savings for administrative functions for the two service areas that would otherwise not be realized. The District uses the expense ratio method to allocate these shared expenses. For FY 2013-2014, the assigned percentages are as follows:

Marina Water 31% Ord Community Water 51% Marina Sewer 7% Ord Community Sewer 11%

Assumptions. The key assumptions used to build this Budget include:

- projected revenues in Marina and Ord Systems are normally based on current customer accounts and known developments, however, due to the delay in the completion of the rate study, projected revenues are based on the estimated actual revenues for FY 2012-2013.
- projected revenues and funding sources of \$18.768 million for all cost centers; Marina Water \$4.255 million, Marina Sewer \$0.880 million, Ord Community Water \$5.709 million, Ord Community Sewer \$1.879 million, Recycled Water \$0.328 million, and Regional Project \$5.717 million.
- projected expenses (excluding interest) of \$8.188 million for all cost centers; Marina Water \$2.426 million, Marina Sewer \$0.609 million, Ord Community Water \$4.201 million, and Ord Community Sewer \$0.952 million
- scheduled debt (principal/interest) payments on the 2010 \$8 million bond that refinanced the Armstrong Ranch Promissory Note.
- scheduled debt (principal/interest) payments on the 2006 \$42 million bond for Marina and Ord Community service area and on the Ord Community internal loan repayment from Ord Community service area to Marina service area.
- capital replacement reserve funds for Marina and Ord Systems (\$0.200 million for Marina Water, \$0.100 million for Marina Sewer, \$0.200 million for Ord Water and \$0.100 million for Ord Sewer) for a total of \$0.600 million.
- until rate study is completed, proposed monthly rates include no rate increase for the Marina and for Ord Community customers as follows:

Water Rate (m	onthly)	Marina	Ord Community
Meter Service	Charge	\$18.85	\$17.11
Tier 1	(0 - 8 hcf)	2.29	2.33

- salaries adjusted 2% for Cost of Living Adjustment per MOU agreements with District employee groups.

- support for a staff of 34 positions:
 - Administration 10
 - Operations & Maintenance 16
 - Laboratory 1
 - Conservation 1
 - Engineering 6
- increased health care costs based on information received as of May, 2013 (a 10% increase has been included)

Project Description

This project is for completing the installation of landscaping at MCWDs' Fort Ord Office located at 2840 4th Avenue in Marina, CA. The project scope includes installing a "water-wise" irrigation system and the planting of native plant species and other low water use plants.

Project Justification

A landscape installed as a demonstration "garden," which will be open to the general public, will enhance the public's understanding of the District's landscape and conservation ordinances.

 SCADA System Improvements - Phase I
 Source:
 Internal

 Project No:
 WD-0115
 Index/Multiplier:
 1.0

 Cost Center:
 Marina Water; Marina Sewer; Ft Ord Water; Ft Ord Sewer

Project Description

This project is for improving the Supervisory, Control, and Data Acquisition (SCADA) facilities. MCWD has more than 40 (current) remote water and sewer infrastructure sites that need SCADA improvement. The current phase of the project will result in functional and expandable SCADA "hubs" that will transmit signals to MCWDs' O&M control room while the future phases will up-grade the remote sites.

Project Justification

This project is needed to increase the reliabilty of the SCADA facilities. A well-functioning SCADA system is fundamental to efficient operation of water and waste water systems and reliable SCADA facilities reduce risk because problems with remote infrastructure can be identified, communicated and/or prevented prior to failure.

Project: A1 & A2 Zone Tanks & B/C Booster Station Source: Water Systems MP

Project Number: GW-0112 Index/Multiplier: San Francisco

Cost Center: Ord Community Water; Marina Water 2.0

Project Description

Two A-Zone storage tanks with a total usable storage capacity of 5.2 Million Gallons, B-Zone and C-Zone Booster Pump Station, and associated piping and facilities.

The project location is currently being negotiatied with CSUMB at the time of preparing this document. At least one Tank will be placed at or near CSUMB main campus.

Project Justification

The District has minimal "A" Zone storage capacity. The A1/A2 Zone Tanks are to provide operational, fire, and emergency water storage for Zone A in the Ord Community and Central Marina The B and C booster pumps will pump water from Zone A to Zones B and C. The facilities currently serving these functions are over sixty years old and are approaching the end of their useful life.

Project Description

Located on Cosky Drive in northern Central Marina, this project will replace the current sanitary sewer lift station (LS) with a concrete below-grade wet-well/dual submersible pump/valve vault LS facility. A back-up generator, new electrical service, and electrical code up-grades are included to ensure reliable service.

Project Justification

This project is needed because the existing LS is beyond its' useful life.

In order to maintain operation, the facility requires frequent attention and specially trained personnel to enter (confined space).

Replacement of this facility will result in lower operational expenses.

Cost Center:	Marina Sewer	Inflation %:	2.0

Project Description

This project provides a new sewer FM to replace a poorly functioning siphon within Reservation Road that traverses beneath Hwy 1.

Project Justification

O&M identified the failing siphon that serves approximately 25% of the Central Marina area. Removing the siphon from the system will prevent potential sewer overflow events and will better serve customers that discharge sewage into the siphon. The failing siphon is also causing operational difficulties with Lift Station 2 that will be resolved by implementing this CIP.

Project: Well 30 Pump Replacement

Project No: OW-0223

Cost Center Ord Community Water

Project Description

Replacement of Well 30 pump, casing, and shaft assembly and the installation of a transducer to monitor water levels.

Project Justification

The Well 30 Pump and casing have reached the end of their useful life and require replacement.

O & M staff removed the pump and casing after abnormal vibrations were encountered.

Once extracted it was determined the assembly was no longer operating properly and would require replacement. This work is required to get the well back online.

Project:	Gigling Transmission from D Booster to JM Blvd	Source:	Internal	
Project No:	OW-0201	Index/Multiplier:	1.0	
Cost Center	Ord Community Water	Inflation %:	2.0	

Project Description

This project entails the construction of approximately 1,800-LF of 12-inch PVC potable water pipeline to repalce an existing 12-inch AC pipeline installed by the Army. The section of pipeline being installed will be within the Gigling Road alignment from the D-BPS and extending to the west of the General Jim Moore Boulevard intersection.

Project Justification

This project was originally identified in the Ord Community Water Distribution Master Plan (2004, RBF). Staff identified the need to increase the scope of the project based on the existing condition and installation failings of the facility. The condition and installation failings were discovered in 2011 through a significant water outage event. Staff has re-estimated the cost of this CIP based on the new scope (thus the Source of the project is now Internal).
