Agenda Title: Kick-off Meeting between the Board of Directors and the District's Independent Audit Firm, Pun & McGeady, LLP on the FY 2012-2013 Annual Audit

Detailed Description: The Board requested a kick-off meeting between the Board and the District's Independent Audit Firm, Pun & McGeady, LLP (P&M) to discuss the FY 2012-2013 annual audit.

Previously, the Board adopted Resolution No. 2012-48 awarding a 3-year contract with P&M to perform annual audit services to the District. The contract with P&M was an annual contract renewable every year during the 3-year period. At the conclusion of the audit for FY 2011/2012, P&M conducted an evaluation of the District's audit which revealed that the audit took over three times the amount of hours than what was estimated in their proposal.

P&M then opted not to renew the existing contract and instead proposed an amended contract at an increased fixed amount per year for the remaining 2-years of the original 3-year contract to reflect a more realistic amount of time necessary to provide audit services to the District. On April 15, 2013, the Board approved Resolution No. 2013-39 approving the amended contract and requested that the kick-off meeting with P&M be conducted between the Board and P&M.

Environmental Review Compliance: None required.

Agenda Title: Consider Adoption of Resolution No. 2013-54 to Approve a Planning Agreement to Amend and Extend an Agreement for Exercise of Exclusive Right to Negotiate for Purchase of Pre-1914 Water Right with Clark Colony Water Company

Detailed Description: Since at least 2006 the District has been discussing with Clark Colony Water Company (CCWC) the purchase of CCWC's Pre-1914 Water Rights. The last Agreement was executed in December 2009.

Staff has worked with CCWC representatives on the agreement presented tonight to amend and extend those existing agreements. This Planning Agreement secures the District's exclusive right to purchase the pre-1914 water rights while the District proceeds with the necessary CEQA studies for possible purchase. If the District moves forward with the CEQA work without executing this agreement it could spend considerable money and CCWC could still sell the water rights to another interested party at any time.

Environmental Review Compliance: None required.

Prior Committee or Board Action: On April 26, 2006, the Board approved a MOU with CCWD. On December 12, 2007, the Board approved an agreement for exclusive right to negotiate for purchase of pre-1914 water right with CCWC. On December 23, 2008, the Board approved a planning agreement for exercise of exclusive right to negotiate for purchase of pre-1914 water right from CCWC and to extend the negotiation agreement for an additional 12-months. On December 8, 2009 the Board approved extending the negotiation agreement with CCWC for an additional 12-months.

Board Goals/Objectives: – *Objectives Goal No. 2 – To meet 100% of current and future customers' needs and make timely improvements and increase infrastructure and level of services and human resources to meet needs of expanding service areas in an environmentally sensitive way.*

Financial Impact: Yes No

Funding Source/Recap: \$50,000 (100% from the Ord Water Reserves fund)

Material Included for Information/Consideration: Resolution No. 2013-54; Draft 2013 Planning Agreement, 2006 MOU between MCWD and CCWC, 2007 Agreement between MCWD and CCWC, and 2009 Planning Agreement between MCWD and CCWC.

Agenda Title: Consider Adoption of Resolution No. 2013-56 to Authorize the General Manger to Take All Action Necessary to Formally Apply to the Monterey County Water Resources Agency for Surface Water from the Salinas River

Detailed Description: Current water allocations for the Ord Community total 6,600 acre-feet per year. This allocation has been divided amongst the various planning jurisdictions. The District recognizes that additional water is required for future projects within the Ord Community. Various projects have been studied and considered. One option is to treat surface water from the Salinas River.

The County received an extension of existing Permit 11043 from the State Water Resources Control Board earlier this year. That permit now allows up to 135,000 acre-feet of water to be used from the Salinas River under certain restrictions. Permit 11043 specifically states that diverted water may be used for domestic and agricultural purposes within Zone 2, of which MCWD is a part. The County Water Resources Agency is undergoing a review of possible projects to use that water and has recently formed a Regional Advisory Committee to discuss options.

Staff is seeking Board input regarding the District's desire to pursue obtaining surface water to augment our existing groundwater supplies.

Environmental Review Compliance: None required.

Prior Committee or Board Action: None.
