Board of Directors Marina Coast Water District Marina, California

It is a pleasure to submit the Marina Coast Water District's (MCWD or District) Comprehensive Annual Financial Report (CAFR) for the fiscal years ended June 30, 2014 and 2013. The CAFR gives an assessment of the District's financial condition, informs readers about District services, gives details of infrastructure replacement projects, discusses current issues, and provides financial and demographic trend information.

The California Government Code requires an annual independent audit of MCWD's financial statements by a Certified Public Accountant (CPA). The District's financial statements have been audited by Pun & McGeady LLP, Certified Public Accountants (auditor). The auditor's opinion is included in the financial section of this CAFR.

The CAFR is believed to be accurate in all material respects, and is presented in a manner designed to fairly set forth the financial position, the changes in financial position and cash flows for the District. All disclosures necessary to enable the reader to gain the maximum understanding of the District's financial activity have been included. Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. While the independent auditors have expressed an unmodified ("clean") opinion that MCWD's financial statements are presented in conformity with U.S. generally accepted accounting principles (GAAP), responsibility for both the accuracy of the presented data and completeness and fairness of the presentation, including all disclosures, rests with the District.

District Overview

The District is a special district formed in 1960 under the County Water District Act for the purpose of installing and operating a water supply, water distribution system and wastewater collection system for the City of Marina. The District serves approximately 30,000 residents through 8,000 connections in its Marina and former Fort Ord (Ord Community) service areas.

The District currently pumps all of its supply or approximately 4,000 acre feet of water (both Marina and Ord Community systems) annually from groundwater wells. The District also conveys in excess of two million gallons per day of sewage to the Monterey Regional Water Pollution Control Agency for treatment. The Monterey Regional Water Pollution Control Agency operates the regional wastewater treatment plant.

The District's system encompasses approximately 350 miles of water and sewer pipelines. It owns and operates eight production wells with an estimated capacity of approximately twenty million gallons per day. District water storage includes eight water storage tanks with a combined capacity of eleven million gallons and six booster pump stations. In addition, a monitoring well is strategically located along the coast to monitor water quality and groundwater levels in the aquifers that are the source for the District's water supply. All wells are sampled to identify the presence of chemicals, the threat of salt water intrusion, and to monitor water levels. The District also owns and operates seventeen sewer lift stations.

The District has an authorized staff of 40 full-time employees providing services to its six service area funds: Marina Water, Marina Wastewater, Ord Community Water, Ord Community Wastewater, New Water Project and Regional Desalination Project.

Governance

MCWD is a public agency (special district) governed by a five member independently elected Board of Directors (Board) serving staggered four-year terms elected at-large from within the District's Marina service area. The Ord Community is not annexed into the District's service area and as such Board members are not elected from Ord Community area. Annually, a President and Vice President are chosen among the Board members. MCWD operates under a Board-Manager form of government. The Board of Directors appoints the General Manager who is responsible for the administration of the District. The General Manager organizes and directs District activities in accordance with the Board's policies.

The Board meets in a regular session on the first and third Monday of each month. Regular meetings are held at 6:00 p.m. at the Marina Council Chambers, 211 Hillcrest Avenue, Marina, California. Board meetings are open to the public.

Budget Process

Annually, the District prepares and adopts an operating budget and updates its five-year Capital Improvement Program (CIP). Both serve as the District's financial planning and fiscal control. Budgets are adopted on a basis consistent with governmental GAAP. Budgetary controls are set at the department level and are maintained to ensure compliance with the budget approved by the Board of Directors. The District's budget is a detailed operating plan that identifies estimated costs in relation to estimated revenues. The budget includes the projects, services and activities to be carried out during the fiscal year and the estimated revenue available to finance these operating and capital costs. The budget represents a process wherein policy decisions made by the Board of Directors are adopted, implemented and controlled. Budget control is maintained through the use of project codes and account appropriations. Actual expenditures are then compared to these appropriations on a monthly basis. The General Manager has the discretion to transfer appropriations between activities. Board approval is required for any overall increase

in appropriations or changes to the Capital Improvement Program.

Due to scheduling issues of the Proposition 218 process, the Board extended the FY 2013 budget to FY 2014.

Economic Condition and Outlook

California's water supply continues to be a concern due to projected population increases and current state-wide drought conditions. This concern has increased interest in conservation and new water sources. The District has led the area in its conservation efforts and will continue to make strides in this area.

The District is working on multiple concepts that will provide new water sources to its customers. If each concept bears fruit the District's water portfolio may include groundwater, conservation savings, river water, desalination water and recycled water.

The District continues to align construction projects with current economic growth and is preparing for increased activity by the development community.

Long-term Financial Planning

The District contracted with Carollo Engineers to prepare a five-year rate study and financial plan (Study) for the District. The Study was completed in September 2013 and identified those resources necessary for the District to properly fund its operations and capital program for the fiscal years 2014 through 2018. The Study provides the appropriate means to obtain the needed resources through a combination of rate increases and project financing. A full version of the Study can be viewed on the District's website www.mcwd.org.

Major Initiatives

The District completed a five-year rate study and financial plan in September 2013. The financial plan was to provide the resources that are necessary to properly fund the District as we meet future needs and requirements that are identified in the plan. Based on the recommendations, the District conducted a Proposition 218 notification process to adopt rate increases for its Marina and Ord Community service areas for fiscal years 2015 through 2018. The proposed rates are as follows:

PROPOSED WATER AND WASTEWATER RATE CHANGES FOR THE CENTRAL MARINA SERVICE AREA

CENTRAL MARINA MONTHLY WATER RATES

EXISTING RATE	PROPOSED RATE
	Water Consumption Charge
Water Consumption Charge	Effective July 1, 2014
	\$2.47 per hcf (0-8 hcf)

Internal Control

District management is responsible for the establishment and maintenance of the internal control structure that ensures the assets of the District are protected from loss, theft or misuse. The internal control structure also ensures adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The District's internal control structure is designed to provide reasonable assurances that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgments by management.

Investment Policy

The Board of Directors periodically adopts an Investment Policy that conforms to California State Law, District ordinances and resolutions, prudent money management and the "prudent person" standards. The objectives of the Investment Policy are safety, liquidity and yield. District funds are normally invested in the State Treasurer's Local Agency Investment Fund (LAIF), Certificates of Deposits, and guaranteed investment contracts (GIC).

Water Rates and District Revenues

District policy direction ensures that all revenues from user charges generated from District customers must support all District operations. Accordingly, water rates are reviewed periodically.

Water rates are user charges imposed on customers for services and are the primary component of the District's revenue. Water rates are composed of a commodity (usage) charge and a fixed (readiness-to-serve) charge.

During fiscal year 2013-14 there were no changes in water and sewer rates for either Central Marina or the Ord Community due to scheduling issues of the Proposition 218 notification process.

Independent Audit

State Law and Bond covenants require the District to obtain an annual audit of its financial statements by an independent certified public accountant. The accounting firm of Pun & McGeady LLP, CPAs has conducted the audit of the District's financial statements. The audit was conducted in accordance with auditing standards generally accepted in the United States of America. The firm's report has been included in the financial section of this report.

Other References

More information is contained in the District's management discussion and analysis and the notes to the basic financial statements found in the financial section of this report.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its CAFR for the fiscal year ended June 30, 2013. This was the sixth consecutive year that the District has received this prestigious award. In order to be awarded a Certificate of Achievement, the District had to publish an easily readable and efficiently organized CAFR that satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

Preparation of this report was accomplished by the combined efforts of District staff. We appreciate the dedicated efforts and professionalism that these staff members contribute to the service of the District's customers. We would also like to thank the members of the Board of Directors for their continued support in the planning and implementation of the Marina Coast Water District's fiscal policies.

Respectfully submitted,

Brian Lee Kelly M.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of the Marina Coast Water District Marina, California

Report on Financial Statements

We have audited the accompanying statements of net position of Marina Coast Water District (the "District"), as of and for the years ended June 30, 2014 and 2013, and the related statements of revenues, expenses, and changes in net position, and cash flows for the years then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the District as of June 30, 2014 and 2013, and the respective changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

To the Board of Directors of the Marina Coast Water District Marina, California Page 2

Emphasis of Matter

Implementation of GASB Statement No. 65

The District implemented GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. The adoption of this standard required retrospective application resulting in \$826,313 reduction of previously report net position at July 1, 2013. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and Schedules of Funding Progress on pages 3 to 10 and 38 be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Required Supplementary Information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements. The introductory section, combining fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining fund financial statements are fairly stated, in all material respects, in relation to the financial statements as a whole.

The Introductory and Statistical sections have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Walnut Creek, California November XX, 2014

This section of the Marina Coast Water District's (District) financial statements presents an analysis of the District's financial performance during the fiscal year ended June 30, 2014. This information is presented in conjunction with the transmittal letter in the Introductory Section, and with the basic financial statements and related notes, which follow this section.

Overview of the District's Financial Statements

The financial statements consist of the following three parts: Management's Discussion and Analysis, Basic Financial Statements and related Notes and Supplementary Information.

Basic Financial Statements

The financial statements of the District report information utilizing the full accrual basis of accounting. The financial statements conform to accounting principles generally accepted in the United States of America.

The Statement of Net Position includes information on the District's assets and liabilities and provides information about the nature and amounts of investments in resources (assets) and the obligations to District creditors (liabilities).

The Statement of Revenues, Expenses, and Changes in Net Position identify the District's revenues and expenses for the fiscal year. This statement provides information on the District's operations for the fiscal year and can be used to determine whether the District has recovered all of its actual and projected costs through user fees and other charges.

The Statement of Cash Flows provides information on the District's cash receipts, cash payments and changes in cash resulting from operations, investments and financing activities. From the Statement of Cash Flows, the reader can obtain information on the source and use of cash and the change in the cash and cash equivalents balance for the fiscal year.

Notes to the Basic Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in the basic financial statements.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain Required Supplementary Information concerning the District's progress in funding its obligation to provide post-employment benefits to its employees.

Supplementary Information

Proprietary fund schedules are presented in Supplementary Information to provide additional details on the financial condition of each fund.

Financial Analysis of the District

The Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Net Position provide an indication of the District's financial condition and also indicate whether the financial condition of the District improved over time. The District's net position reflects the difference between assets and liabilities. An increase in net position over time typically indicates an improvement in financial condition. However, considerations should be made for other non-financial factors such as changes in economic conditions, population growth, new or changed government legislation, such as changes in Federal and State water quality standards.

Financial Highlights for Fiscal Year 2013-2014

- At June 30, 2014, the District's total assets exceeded the total liabilities by \$139.0 million (net position), which is an increase of \$4.0 million or 2.9% over the 2013 fiscal year-end balance.
- The total long-term debt for the current fiscal year decreased by \$1.6 million or 3.5% from prior year due to annual debt service payments made without new debt being incurred.
- Capital assets increased by \$1.0 million or 0.6% primarily due to increases in several major capital projects. The District is continuing to align construction projects with current economic growth, but is also preparing for increased activity by the development community.
- Capital contributions increased \$3.6 million primarily due to capacity and connection fees along with an increase in developer projects.

Net Position

A summary of the District's Statement of Net Position is presented below. Balances shown include interfund eliminations. Additional details are provided in the proprietary fund schedules in Supplementary Information.

Total net position	\$ 138,994,78	\$ 135,031,129	\$ 134,213,783	\$ 3,963,652 2.9%	\$ 817,346 0.6%		

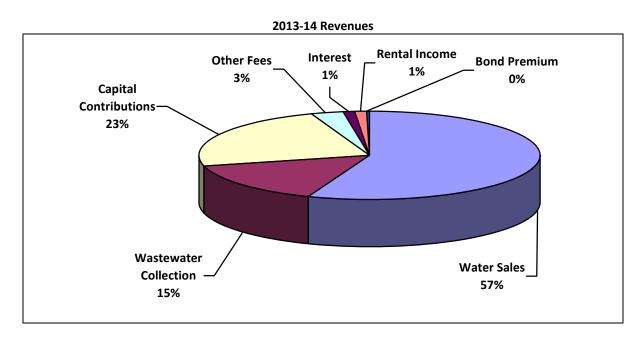

As noted earlier, net position may serve over time as a useful indicator of a district's financial position. In the case of the District, assets exceeded liabilities by \$139.0 million, \$135.0 million and \$134.2 million as of June 30, 2014, 2013 and 2012, respectively.

One of the largest portions of the District's assets (91.2%, 92.0%, and 92.5% as of June 30, 2014, 2013 and 2012, respectively) reflects the District's net investment in capital assets. The District uses these capital assets to provide services to customers within the District's service area; consequently, these assets are not available for future spending.

At the end of fiscal years 2014, 2013 and 2012, the District showed a positive balance in its unrestricted net position of \$8.3 million, \$6.8 million and \$6.2 million, respectively.

Revenue and Expenses

The District finances its water sales and wastewater collection operations through user fees, and other income. Total revenue for fiscal year 2013-14 was \$16.3 million, up \$3.9 million from prior year. Capital contributions increased \$3.6 million from fiscal year 2012-13 primarily due to an increase in capacity and connection fees. The decrease in capital contributions between fiscal years 2012-13 and 2011-12 was due to a reduction in grants.

Revenue and Expenses (continued)

Total expenses for fiscal year 2013-14 were \$11.5 million, slightly lower than prior years. Operations and maintenance expenses increased \$0.2 million and engineering increased by \$0.1 million. This is offset by a decrease in depreciation expense of \$0.3 million due to a portion of infrastructure assets becoming fully depreciated in the prior year.

Revenue and Expenses (concluded)

The Statement of Revenues, Expenses and Changes in Net Position on page 12 show how the District's net position changed during the fiscal year. Net position increased by \$4.0 million, \$0.8 million, and \$2.5 million for the fiscal years ended June 30, 2014, 2013 and 2012, respectively.

Changes in Net Position

Capital Assets

At the end of fiscal years 2014, 2013 and 2012, the District's capital assets amounted to \$167.4 million, \$166.3 million, and \$164.9 million, respectively, (net of accumulated depreciation). Capital assets includes land, water/wastewater rights, easements, transmission and distribution systems, wells, tanks, reservoirs, pumps, building and structures, equipment, vehicles and construction-in-progress.

Changes in capital assets were as follows:

Additional information on the District's capital assets is provided in Note 3 on page 25 of the financial statements.

Debt Administration

As of June 30, 2014, the District had \$43.6 million in outstanding debt compared to \$45.1 million as of June 30, 2013 and \$46.7 million as of June 30, 2012. Revenue certificates of participation in the amount of \$42.3 million were issued in August 2006 to fund costs associated with several major capital improvement projects and were also used to refund the District's existing outstanding debt obligations. The District bought land in 2009 and 2010, securing both purchases with a promissory note. In 2010 subordinate enterprise revenue refunding bonds in the amount of \$8.5 million were issued to refinance the promissory note associated with the Armstrong Ranch land purchase. The District has a line of credit (LOC) in the amount of \$3.5 million secured by a \$3.3 million certificate of deposit. As of June 30, 2014, \$2.2 million of the LOC had been used to fund construction projects related to the Imjin Office Park. The District has covenanted that it will fix, prescribe and collect rates, fees and charges for use of the District's water system during each fiscal year which is at least sufficient to yield in each fiscal year net revenues equal to 125 percent of the debt service for such fiscal year. At the time of the 2006 revenue certificates of participation bond, Standard & Poor's gave the District an "A-" rating. In April 2009, the District's rating was increased to "A+" and again in December 2010 to "AA-". The 2010 subordinate enterprise revenue refunding bonds were assigned an "A+" long-term rating at the time of issue. Both ratings were affirmed in November 2013 by Standard & Poor's Ratings Services.

Changes in long-term debt amounts were as follows:

Outstanding Debt at Year End

Additional information on the District's long-term debt is provided in Note 6 on pages 27-29 of the financial statements.

Economic Factors and Next Year's Budget and Rates

The Board of Directors adopted the District's 2014-2015 Marina and Ord Community budgets and rates on June 27, 2014. The approval of the budget provides funding for the District's operating, capital and debt service costs for the 2014-15 fiscal year. The District's water and wastewater rates are reviewed by staff on an annual basis.

Water augmentation cost center does not generate revenues and is created to capture accruing costs related to water augmentation projects.

Requests for Information

This financial report is designed to provide the District's elected officials, customers, investors, creditors and other interested parties with an overview of the District's financial operations and financial condition. Should the reader have questions regarding the information included in this report or wish to request additional financial information, please contact the Director of Administrative Services, Marina Coast Water District, 11 Reservation Road, Marina, California 93933.

The notes to the basic financial statements are an integral part of this statement.

This page is intentionally left blank.

The notes to the basic financial statements include a summary of significant accounting policies and other information considered essential to fully disclose and fairly present the transactions and financial position of the District, as follows:

Note 1 - Summary of Significant Accounting Policies

Note 2 - Cash and Investments

Note 3 - Capital Assets

Note 4 - Receivables

Note 5 - Line of Credit

Note 6 - Long-Term Debt

Note 7 - Operating Leases

Note 8 - Defined Benefit Pension Plan

Note 9 - Post Employment Benefits

Note 10 - Risk Management

Note 11 - Commitments and Contingencies

Note 12 - Subsequent Event

This page is intentionally left blank.

Note 1 – Summary of Significant Accounting Policies

A. Reporting Entity

The Marina Coast Water District (District) is organized for the purpose of providing water distribution services as well as wastewater collection for the residents and businesses of the City of Marina and the former Fort Ord (Ord Community) area. The District's former name was Marina County Water District, and in July 1993, the name was changed by the Board of Directors (Board) to Marina Coast Water District.

B. Basis of Presentation

The accounts of the District are organized and operated on a fund basis. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, net position, revenues and expenses.

All activities of the District are accounted for within proprietary (enterprise) funds. Proprietary funds are used to account for operations that are (a) financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through users charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or operating income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The District presents comparative financial statements in the accompanying financial statements to improve financial reporting for the District. In addition, the District presents the following funds in the accompanying Supplementary Information:

The **Marina Water fund** accounts for operations of the water system within the central Marina service area.

The **Marina Sewer fund** accounts for operations of the wastewater collection system within the central Marina service area.

The **Ord Water or Ord Community Water fund** accounts for operations of the water system within the former Fort Ord service area.

The **Ord Sewer or Ord Community Sewer fund** accounts for operations of the wastewater collection system within the former Fort Ord service area.

Note 1 – Summary of Significant Accounting Policies (continued)

B. Basis of Presentation (concluded)

The **New Water fund** accounts for operations of the recycled or augmented water system within the District service area.

The **Regional Project fund** accounts for operations of the Regional Desalination Project.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services, and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenues of the District are charges to customers for sales and services. The District's operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the District. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as investment earnings, result from nonexchange transactions or ancillary activities, in which the District gives (receives) value without directly receiving (giving) equal value in exchange.

C. Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied. The accompanying financial statements are reported using the "economic resources measurement focus", and the accrual basis of accounting. Under the economic measurement focus all assets and liabilities (whether current or noncurrent) associated with these activities are included on the Statement of Net Position. The Statement of Revenue, Expenses, and Changes in Net Position present increases (revenues) and decreases (expenses) in total net position. Under the accrual basis of accounting, revenues are recorded when earned and expenses when a liability is incurred, regardless of the timing of the related cash flows.

Note 1 – Summary of Significant Accounting Policies (continued)

D. Statement of Net Position

In 2013, the Government Accounting Standards Board (GASB) Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, created two new elements to the statement of financial position, i.e. Deferred Outflows of Resources and Deferred Inflows of Resources, and re-named "Net Assets" to "Net Position". In addition, the "Invested in Capital Assets, net of related debt" was re-named to "Net Investment in Capital Assets". The District has implemented GASB Statement No. 63 in the accompanying financial statements.

- Net Investment in Capital Assets This component consists of capital assets, including
 restricted capital assets, net of accumulated depreciation and reduced by the outstanding
 balances of any bonds, mortgages, notes, or other borrowings that are attributable to the
 acquisition, construction, or improvement of these assets. If there are significant unspent
 related debt proceeds at year-end, the portion of the debt attributable to the unspent
 proceeds are not included in the calculation of invested in capital assets, net of related
 debt. Rather, that portion of the debt is included in the same component as the unspent
 proceeds.
- **Restricted** This component consists of external constraints imposed by creditors, grantors, contributors or laws or regulations of other governments. It also pertains to constraints imposed by law or constitutional provisions or enabling legislation.
- Unrestricted This component consists of those components that do not meet the
 definition of "restricted" or "net investment in capital assets". Amounts included as
 unrestricted net assets are available for designation for specific purposes established by
 the District's Board of Directors.

E. Statement of Revenues, Expenses, and Changes in Net Position

Operating revenues, such as charges for services (water sales, wastewater sales, and other services and fees) result from exchange transactions associated with the principal activity of the District. Exchange transactions are those in which each party receives and gives approximately equal value. Nonoperating revenues, such as interest earned, result from nonexchange transactions or ancillary activities in which the District gives (receives) value without directly receiving (giving) approximately equal value.

Operating expenses include the cost of sales and services, administration, operations and maintenance, laboratory, conservation, engineering, and depreciation. All expenses not meeting these categories are reported as nonoperating.

Note 1 – Summary of Significant Accounting Policies (continued)

F. Budget

Budget integration is employed as a management control device. Budgets are formally adopted by the Board of Directors and take effect starting July 1 of each year. The budgets are used as a management tool and are not a legal requirement.

G. Cash, Cash Equivalents, and Investments

For purposes of the Statement of Cash Flows, the District considers all highly liquid investment instruments purchased with a maturity of three months or less to be cash and cash equivalents. The short-term investments include the California Local Agency Investment Fund.

All investments are stated at fair value. Fair value is the value at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

H. Accounts Receivables

The District extends credit to customers in the normal course of operations and accounts for potential losses using the allowance method. Accounts receivable consists of utility customer receivables and receivables from agreements with local developers to provide water from its desalination plant.

Management evaluates all accounts receivable and if it is determined that they are uncollectible they are written off as bad debt expense. Also, management provides an allowance for uncollectible accounts related to utility customers and local developers.

I. Inventories

Inventories are stated at cost, determined on a first-in, first-out basis.

J. Restricted Assets

Restricted assets are financial resources generated for a specific purpose such as construction of improvements and financing of debt obligations. These assets are for the benefit of a distinct group and as such are legally or contractually restricted.

Note 1 – Summary of Significant Accounting Policies (continued)

K. Bond Premiums

Bond premiums are netted against the related debt and included in bonds payable.

L. Capital Assets

The District's capital assets are stated at historical cost or estimated historical cost when original cost was not available, net of accumulated depreciation. Contributed capital assets are recorded at estimated fair value at the time assets are received. The District's policy is to capitalize all capital assets with costs exceeding a minimum threshold of \$5,000. Depreciation is recorded using the straight-line method over the estimated useful lives of the capital assets which range from 30 to 60 years for the plant and pipelines, and 5 to 10 years for other equipment.

The cost of routine maintenance and repairs that do not increase the value or extend the life of a capital asset are not capitalized, but are expensed.

M. Compensated Absences

All earned vacation hours accumulated up to 260 hours, holiday, and compensation time, is payable upon termination or retirement and accrued as compensated absences.

N. Rebate Arbitrage

Rebate arbitrage earnings related to the 2006 certificates of participation are being recorded as a liability. As of June 30, 2014 and 2013, the District's liability was estimated at \$0 and \$0, respectively.

O. Deficit Fund Balances

At June 30, 2014, the New Water fund had a deficit fund balance of \$(5,358,749), which will be eliminated through future revenues collected from ratepayers of the regional water project.

Note 1 – Summary of Significant Accounting Policies (continued)

P. Interfund Transactions

Interfund transactions may result from loans or transfers. "Due to" and "due from" balances are generally used to reflect short-term interfund receivables and payables where as "advance to" and "advance from" balances are for long-term.

Q. Property Taxes

Property taxes in California are levied in accordance with Article XIIIA of the State Constitution at 1% of countywide assessed valuations. This levy is allocated pursuant to state law to the appropriate units of local governments.

Property tax revenue is recognized in the fiscal year in which taxes are levied. Taxes are collected by Monterey County; however, the District does not currently receive tax revenue.

The property tax calendar is as follows:

Lien Date: January 1

Levy Date: July 1

Due Date: November 10 (First Installment)

February 10 (Second Installment)

Delinquent Date: December 11 (First Installment)

April 11 (Second Installment)

R. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and assumptions.

Note 1 – Summary of Significant Accounting Policies (concluded)

S. Adoption of New GASB Pronouncements and Restatements

GASB has issued Statement No. 65, Items Previously Reported as Assets and Liabilities. The requirements of this statement improve financial reporting by clarifying the appropriate use of deferred outflows of resources and deferred inflows of resources to ensure consistency in financial reporting and to recognize as outflows of resources or inflows of resources certain items that were previously reported as assets and liabilities. This statement became effective for periods beginning after December 15, 2012. The implementation of GASBS 65 required the write-off of deferred bond issuance costs that were previously classified as assets, therefore, the District's beginning net position has been restated.

GASB has issued Statement No. 66, Technical Corrections – 2012 – an amendment of GASB Statements No. 10 and No. 62. The requirements of this statement resolve conflicting accounting and financial reporting guidance that could diminish the consistency of financial reporting and thereby enhance the usefulness of the financial reports. This statement became effective for periods beginning after December 15, 2012 and did not have a significant impact on the District's financial statements for year ended June 30, 2014.

GASB has issued Statement No. 70, Accounting and Financial Reporting for Nonexchange Financial Guarantees. The requirements of this statement enhance comparability of financial statements among governments by requiring consistent reporting by those governments that extend nonexchange financial guarantees and by those governments that receive nonexchange financial guarantees. This statement also enhances the information disclosed about a government's obligations and risk exposure from extending nonexchange financial guarantees. This statement also augments the ability of financial statement users to assess the probability that governments will repay obligation holders by requiring disclosures about obligations that are issued with this type of financial guarantee. This statement became effective for period beginning after June 15, 2013 and did not have a significant impact on the District's financial statements for the year ended June 30, 2014.

Note 2 - Cash and Investments

Cash and investments as of June 30, 2014 are classified in the accompanying financial statements as follows:

	2014	2013
Statement of Net Position:		
Cash and investments	\$ 10,101,074	\$ 9,843,147
Restricted cash and investments	10,278,700	9,449,715
Total cash and investments	\$ 20,379,774	\$ 19,292,862

Cash and investments as of June 30, 2014 consist of the following:

	2014		 2013	
Cash on hand	\$	1,150	\$ 1,150	
Deposits with financial institutions	2,	,432,712	1,387,502	
Investments	17,	,945,912	 17,904,210	
Total cash and investments	\$ 20,	,379,774	\$ 19,292,862	

Investments Authorized by the District's Investment Policy

The District's investment policy only authorizes investment in money market funds, certificates of deposits, guaranteed investment contracts (GIC), and the local government investment pool administered by the State of California's Local Agency Investment Fund (LAIF). The District's investment policy does not contain any specific provisions intended to limit the District's exposure to interest rate risk, credit risk, and concentration of credit risk.

As part of the 2006 revenue certificates of participation bond, the District also entered into separate guaranteed investment contracts (GIC) with MBIA, Inc. and Trinity Funding Company, LLC.

Note 2 - Cash and Investments (continued)

<u>Disclosures Relating to Interest Rate Risk</u>

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the maturity date of each investment:

	Fair V	alue	
	2014	2013	Maturity
Statement Investment Pool (LAIF)	\$ 7,429,000	\$ 7,410,173	N/A - due on demand
Money Market Fund	3,026,589	3,017,742	N/A - due on demand
Debt Reserve Fund (GIC)	3,933,772	3,933,553	324 months to maturity
Certificate of Deposits	3,556,551	3,542,742	6 months to maturity
Total	\$ 17,945,912	\$ 17,904,210	

GIC – Guaranteed Investment Contract LAIF – Local Agency Investment Fund

<u>Disclosures Relating to Credit Risk</u>

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. LAIF does not have a rating provided by a nationally recognized statistical rating organization.

Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. There are no investments in any one issuer that is in excess of five percent of the District's total investments.

<u>Custodial Credit Risk</u>

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government agency will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies.

Note 2 - Cash and Investments (continued)

California law also allows financial institutions to secure District deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government agency will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools (such as LAIF).

<u>Collateral and Categorization Requirements</u>

On June 30, 2014, the District's carrying amount of demand deposits was \$2,432,712, and the bank account balance was \$2,594,852. The difference of \$162,140 represented outstanding checks and deposits in transit. Of the total deposit balance, \$250,000 was insured by federal depository insurance and \$2,344,852 was collateralized 110% in accordance with California Government Code requirements by securities held by the pledging financial institution in the District's name.

On June 30, 2013, the District's carrying amount of demand deposits was \$1,387,502, and the bank account balance was \$1,423,769. The difference of \$36,267 represented outstanding checks and deposits in transit. Of the total deposit balance, \$250,000 was insured by federal depository insurance and \$1,173,769 was collateralized 110% in accordance with California Government Code requirements by securities held by the pledging financial institution in the District's name.

Investment in State Investment Pool

The District is a voluntary participant in the Local Agency Investment Fund (LAIF). LAIF, established in 1977, is regulated by the California Government Code Section 16429 and under the day-to-day administration of the State Treasurer.

The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

Note 2 - Cash and Investments (concluded)

The District's investments with LAIF included a portion of the pooled funds invested in medium-term and short-term structured notes and asset-backed securities. These investments included the following:

<u>Structured Notes</u> are debt securities (other than asset-backed securities) whose cash flow characteristics (coupon rate, redemption amount, or stated maturity) depend upon one or more indices and/or that have embedded forwards or options.

<u>Asset-Backed Securities</u>, the bulk of which are mortgage-backed securities, entitle their purchasers to receive a share of the cash flows from a pool of assets such as principal and interest repayments from a pool of mortgages (such as Collateralized Mortgage Obligations) or credit card receivables.

The Local Investment Advisory Board provides oversight for LAIF. The Board consists of five members as designated by statute. The State Treasurer, as Chairman, or his designated representative appoints two members qualified by training and experience in the field of investment or finance, and two members who are treasurers, finance or fiscal officers or business managers employed by any county, city or local district or municipal corporation of this state.

As of June 30, 2014 and 2013, the District had \$7,429,000 and \$7,410,173, respectively invested in LAIF, which had invested 1.86% and 1.88%, respectively, of the pooled investment funds in short-term and medium-term structured notes and asset-backed securities. The fair value of the District's position in the pool is the same as the value of the pool shares.

Note 3 - Capital Assets

Changes in capital assets for the fiscal year ended June 30, 2014, is as follows:

	Balance		- I	Balance at
	June 30, 2013	Additions	Deletions	June 30, 2014
Non-depreciable assets:				
Land	\$ 9,582,134	\$ -	\$ -	\$ 9,582,134
Property easement	24,900,000	-	-	24,900,000
Water/sewer rights	75,129,410	-	-	75,129,410
Construction in progress (1)	25,436,200	2,723,926		28,160,126
Total non-depreciable assets	135,047,744	2,723,926		137,771,670
			_

Infrastructure	58,622,142	-	-	58,622,142
Total depreciable assets	66,074,916	126,027	(119,170)	66,081,773
Less accumulated depreciation:				
Land improvements	(38,121)	_	_	(38,121)
	(909,622)	(132,051)	_	
Buildings and improvements		• • •	-	(1,041,673)
Equipment	(2,324,222)	(210,610)	110,498	(2,424,334)
Infrastructure	(31,536,336)	(1,448,778)		(32,985,114)
Total accumulated depreciation	(34,808,301)	(1,791,439)	110,498	(36,489,242)
Depreciable assets, net	31,266,615	(1,665,412)	(8,672)	29,592,531
Total capital assets, net	\$ 166,314,359	\$ 1,058,514	\$ (8,672)	\$ 167,364,201

⁽¹⁾ Construction in progress includes capitalized interest in the amount of \$2,610,678 and \$2,611,826 for the years ended June 30, 2014 and 2013, respectively.

Depreciation Allocations

Depreciation expense was charged to functions and programs based on their usage of the related assets. The depreciation expense for the years ended June 30, 2014 and 2013 totaled \$1,791,439 and \$2,062,451, respectively.

Note 4 – Receivables

At June 30, 2014 and 2013, accounts receivable consisted of utility customer receivables of \$1,164,055 and \$1,147,525, respectively, and receivables from agreements with local developers in the amount of \$527,966 and \$429,000, respectively. The allowance for uncollectible accounts related to utility customers was \$91,564 and \$83,176, respectively and for local developers was \$462,296 and \$429,000, respectively.

Other receivable balance, net of allowance for doubtful accounts, currently outstanding at June 30, 2014 and 2013 was \$1,138 and \$35,507, respectively.

Note 5 – Line of Credit

On May 12, 2009, the Board adopted Resolution No. 2009-34 approving an agreement with the Fort Ord Reuse Authority (FORA) to purchase property and lease back space of the to-be-built building within the Imjin Office Park. On July 24, 2009, the District successfully closed escrow and obtained ownership to the FORA portion of the Imjin Office Park Property. The total cost of site improvements and building construction was estimated at \$3,276,000.

Construction costs were funded through a certificate of deposit secured non-revolving line of credit (LOC) with Rabobank. The original loan commenced on December 2, 2010, was due to mature on December 1, 2011, and has been extended to December 1, 2014. The District intends to extend the line of credit to December 1, 2015. The terms of the LOC are interest only payments at an interest rate of 1.90% (CD rate + 1.5% margin). As of June 30, 2014, \$2,227,979 of the LOC has been used to construct the building. Currently, the building is partially occupied by FORA. The remaining available balance of the line of credit of \$1,048,021 will be used for tenant improvements once the vacant portion of the building is leased out.

Note 6 - Long-Term Debt

Long-term liability activity for the fiscal year ended June 30, 2014, was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due within One Year
2006 Certificates of Participation plus unamortized premiums Net 2006 Certificates of Participation	\$ 37,110,000	\$ -	\$ (950,000)	\$ 36,160,000	\$ 990,000
	842,179	-	(36,353)	805,826	-
	37,952,179	-	(986,353)	36,965,826	990,000
2010 Revenue Bonds Payable	6,370,000		(700,000)	5,670,000	725,000
plus unamortized premiums	79,130		(11,305)	67,825	-
Net 2010 Revenue Bonds Payable	6,449,130		(711,305)	5,737,825	725,000
Promissory note - Fort Ord Reuse Authority Compensated absences OPEB liability Totals	21,224 250,646 468,058 \$ 45,141,237	241,304 131,723 \$ 373,027	(21,224) (215,637) - \$ (1,934,519)	276,313 599,781 \$ 43,579,745	9,617 - \$ 1,724,617

A. 2006 Certificates of Participation

On August 23, 2006, the District issued certificates of participation revenue bonds (2006 COP Bonds) in the amount of \$42,310,000 due in semi-annual installments on December 1 and June 1 through 2037 at a weighted average interest rate of 4.795% per annum. A portion of the proceeds from the bond issue was used to refund the 1996 LaSalle National Bank note, the 1997 Cypress Bank note, and the 2003 City National Bank loan. The remaining balance of the proceeds will be used to fund the District's capital improvement projects. The 2006 COP Bonds are payable solely from, and secured by, the revenues received from the operation of the District's water and wastewater systems. As of June 30, 2014 and 2013, the outstanding balance was \$36,160,000 and \$37,110,000, respectively.

Note 6 - Long-Term Debt (continued)

A. 2006 Certificates of Participation (concluded)

Future payments are as follows:

Year Ending	2006 Enterprise Revenue Certificates of Participation				
June 30,	Principal	Interest	Total		
2015	\$ 990,000	\$ 1,743,562	\$ 2,733,562		
2016	930,000	1,703,962	2,633,962		
2017	970,000	1,666,763	2,636,763		
2018	1,010,000	1,627,963	2,637,963		
2019	1,050,000	1,587,563	2,637,563		
2020-2024	6,430,000	7,117,200	13,547,200		
2025-2029	7,610,000	5,470,500	13,080,500		
2030-2034	9,715,000	3,369,000	13,084,000		
2035-2037	7,455,000	776,500	8,231,500		
	\$ 36,160,000	\$ 25,063,013	\$ 61,223,013		

B. 2010 Revenue Bonds

On December 16, 2010, the District issued refunding revenue bonds in the amount of \$8,495,000 due in semi-annual installments on December 1 and June 1 through 2020 at a weighted average interest rate of 4.340% per annum. The proceeds from the bond issue were used to refinance the Armstrong Ranch Promissory Note. The 2010 bonds are payable solely from, and secured by, the revenues received from the operation of the District's water and wastewater systems. As of June 30, 2014 and 2013, the outstanding balance was \$5,670,000 and \$6,370,000, respectively.

Future payments are as follows:

Year Ending	2010 Subordinate	2010 Subordinate Enterprise Revenue Refunding Bonds				
June 30,	Principal	Interest	Total			
2015	\$ 725,000	\$ 260,850	\$ 985,850			
2016	755,000	231,850	986,850			
2017	785,000	201,650	986,650			
2018	820,000	170,250	990,250			
2019	850,000	129,250	979,250			
2020	1,735,000	86,750	1,821,750			
	\$ 5,670,000	\$ 1,080,600	\$ 6,750,600			

The purpose of the debt was to change the rate of interest from a variable rate to a fixed rate. The District did not calculate the difference in the debt service payments or the economic gain or loss.

Note 6 - Long-Term Debt (concluded)

C. Bond Premiums

Bond premiums are netted against the related debt and included in bonds payable. Amortization expense for the year ended June 30, 2014 and 2013, was \$47,658 and \$47,657, respectively.

D. Compensated Absences

District employees accumulate earned, but unused, vacation and sick pay benefits which can be converted to cash at termination of employment. The compensated absences balance at June 30, 2014 and 2013 was \$276,313 and \$250,646, respectively.

Note 7 – Operating Leases

The District entered into operating lease agreements in connection with the lease of an office copier, postage machine, and phone equipment. The District's postage machine is a cancelable lease. The other leases, for the office copier and phone equipment, are non-cancelable leases.

Minimum lease payments under the obligations are as follows:

Year ending June 30,	
2015	\$ 769
Total	\$ 769

The District's total operating lease expense for the years ended June 30, 2014 and 2013 was \$25,894 and \$28,452, respectively.

Note 8 - Defined Benefit Pension Plan

A. Plan Description

The District's defined benefit pension plan, the Miscellaneous Plan of the Marina Coast Water District (Miscellaneous Plan), provides retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries. The Miscellaneous Plan is part of the Public Agency portion of the California Public Employees Retirement System (CalPERS), a cost-sharing multiple-employer defined benefit plan administered by CalPERS, which acts as a common investment and administrative agent for participating public employers within the State of California. Menus of benefit provisions as well as other requirements are established by state statutes within the Public Employees' Retirement Law. The District selects optional benefit provisions from the benefit menu by contract with CalPERS and adopts those benefits through resolution. CalPERS issues a separate comprehensive annual financial report. Copies of the CalPERS' annual financial report may be obtained from CalPERS Executive Office - 400 Q Street - Sacramento, CA 95811.

B. Funding Status and Funding Progress

In fiscal year ended June 30, 2004, CalPERS established a risk pool for cities and other government entities that have less than 100 active members. Actuarial valuations performed include other participants within the same pool. Therefore, stand-alone information of the schedule of funding progress for the District is no longer available, nor disclosed.

C. Funding Policy

The District contributes for active plan members in the Miscellaneous Plan, 7% of their annual covered salaries. The District also is required to contribute the actuarially determined remaining amounts necessary to fund the benefits for its members. The actuarial methods and assumptions used are those adopted by the CalPERS Board of Administration. The required employer contribution rate for the fiscal years 2013-14 was 8.486% and 2012-2013 was 7.84% for Miscellaneous Plan employees. The contribution requirements of the plan are established by state statute and the employer contribution rates established may be amended by CalPERS.

Note 8 - Defined Benefit Pension Plan (concluded)

D. Annual Pension Cost

For fiscal year 2013-14, the District's annual pension cost was \$419,580 and the District actually contributed \$419,580. The District paid the required member contributions of 7% referred to in paragraph (C) by transferring assets from its employer account to the individual accounts of its employees. The required contribution for fiscal year 2013-14 was determined as part of the June 30, 2011 actuarial valuation using the entry age normal cost method with the contributions determined as a percent of pay. The actuarial assumptions included (a) a 7.50% investment rate of return (net of administrative expenses), (b) projected salary increases of 3.30% to 14.20% depending on age, service, and type of employment, (c) an inflation rate of 2.75%, (d) a payroll growth rate of 3.00%, and (e) individual salary growth – a merit scale varying by duration of employment coupled with an assumed annual inflation growth rate of 2.75% and an annual production growth of 0.25%.

For fiscal year 2012-13, the District's annual pension cost was \$413,374 and the District actually contributed \$413,374. The District paid the required member contributions of 7% referred to in paragraph (C) by transferring assets from its employer account to the individual accounts of its employees. The required contribution for fiscal year 2012-13 was determined as part of the June 30, 2010 actuarial valuation using the entry age normal cost method with the contributions determined as a percent of pay. The actuarial assumptions included (a) a 7.75% investment rate of return (net of administrative expenses), (b) projected salary increases of 3.55% to 14.45% depending on age, service, and type of employment, (c) an inflation rate of 3.00%, (d) a payroll growth rate of 3.25%, and (e) individual salary growth – a merit scale varying by duration of employment coupled with an assumed annual inflation growth rate of 3.00% and an annual production growth of 0.25%.

The actuarial value of the plan's assets was determined using a technique that smoothes the effect of short-term volatility in the market value of investments over a three-year period depending on the size of investment gains and losses. The plan's unfunded actuarial accrued liability (or excess assets) is being amortized as a level percentage of projected payroll on a closed basis.

Miscellaneous Plan				
Year	Annual	Percentage	Net	
Ending	Pension	of APC	Pension	
June 30,	Cost (APC)	Contributed	Obligation	
2012	\$384,946	100%	\$0	
2013	\$413,374	100%	\$0	
2014	\$419,580	100%	\$0	

Note 9 – Other Post Employment Benefits (OPEB)

A. Plan Description

The District provides post employment benefits to eligible employees in the form of partial reimbursement for post employment health insurance premiums. Eligibility requirements include a minimum of 20 years employment with the District and minimum retirement age of 55 years. For eligible employees, the District will pay 50% of the retired employee's health insurance premiums. The obligation of the District to provide these benefits is determined by agreements with various employee bargaining groups. The District's contributions are financed on a pay-as-you-go basis. The District paid \$6,838 in post employment benefits for three retired employees who were eligible for benefits during the fiscal year ended June 30, 2014.

B. Funding Status and Funding Progress

As of June 30, 2013, the most recent actuarial valuation date, the plan was 0% funded. The actuarial accrued liability for benefits was \$1,350,449, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,350,449. The covered payroll (annual payroll of active employees covered by the plan) was \$2,593,249, and the ratio of the UAAL to the covered payroll was 52%.

Actuarial valuation of an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far in the future. Examples include assumptions about rates of employee turnover, retirement, mortality, as well as economic assumptions regarding interest rates. Amounts determined regarding the funded status of the plan and the annual pension costs are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the basic financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing over time relative to the actuarial accrued liability.

Note 9 – Other Post Employment Benefits (OPEB) (continued)

C. Funding Policy

The contribution requirements of the plan members and the District are established and may be amended by the District's Board of Directors, and/or employee associations. Currently, contributions from plan members are not required.

D. Annual Cost

The annual required contribution (ARC) was determined by an actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions included (a) 4.5% investment rate of return, and (b) annual increases in healthcare premiums grading from a current rate of 6.7% down to 5.0% per year in 2020 and later.

Projections of benefits for financial reporting purposes are based on the substantive plan in effect at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that smooth the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of any plan assets. Actuarial calculations reflect a long-term perspective and actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The District's OPEB unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll over a period of 30 years on a closed basis. As of July 1, 2013, the underfunded actuarial accrued liability was \$1,473,088.

Note 9 – Other Post-Employment Benefits (OPEB) (concluded)

D. Annual Cost (concluded)

The annual OPEB cost and the net OPEB obligation at June 30, 2014 was as follows:

	 2014	 2013
Annual required contribution	\$ 132,042	\$ 138,808
Interest on net OPEB obligation	20,738	15,202
Adjustment to annual required contribution	(21,441)	 (15,222)
Annual OPEB cost (expense)	131,339	138,788
Contributions made	 (6,838)	 (8,546)
Increase in net OPEB obligation	124,501	130,242
Net OPEB obligation - beginning of year	 468,058	 337,816
Net OPEB obligation - end of year	\$ 592,559	\$ 468,058

The District has calculated and recorded the net OPEB liability, representing the difference between the annual OPEB cost and actual contributions, as presented below:

Year	Annual	Actual	Percentage of	Net
Ending	OPEB	Contributions	Annual OPEB	OPEB
June 30,	Cost	(pay-as-you-go)	Cost Contributed	Obligation
2012	\$126,499	\$5,373	5%	\$337,816
2013	\$138,788	\$8,546	5%	\$468,058
2014	\$131,339	\$6,838	5%	\$592,559

Note 10 - Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District participates in the Association of California Water Agencies - Joint Powers Insurance Authority (ACWA-JPIA), a public entity risk pool currently operating as a common risk carrier management and insurance program for member agencies. The purpose of ACWA-JPIA is to spread the adverse effect of losses among the members and to purchase excess insurance as a group, thereby reducing its expenses. The District pays an annual premium to the ACWA-JPIA for its general liability, automobile, and property coverage. The formation agreement of the ACWA-JPIA provides that the ACWA-JPIA will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of \$500,000 for each insured event.

The District has a self-insured retention (similar to a deductible) of \$500 for automobile insurance, \$5,000 for general liability insurance, and \$1,000 for property insurance. The District continues to carry commercial insurance for all other risks of loss, including workers' compensation, and employee health and accident insurance.

Note 11 - Commitments and Contingencies

In the normal course of operations, various claims have been filed against the District. In the opinion of the District's management and legal counsel, the claims will not have a material impact on the basic financial statements.

The District has received state grants for specific purposes that are subject to review and audit by the state government. Although such audits could result in expenditure disallowances under grant terms, any required reimbursements are not expected to be material.

Regional Desalination Project

In fiscal year 2010-11, the District entered into a Water Purchase Agreement, Settlement Agreement, Reimbursement Agreement, CAW Credit Line Agreement and Regional Desalination Project Management Agreement ("RDP Agreements") with the Monterey County Water Resources Agency (the "MCWRA"), and the California-America Water Company (the "CAW") to develop, finance, and construct a Regional Desalination Project (the "RDP"). The purpose of the RDP was to replace existing Monterey Peninsula water supplies that are substantially constrained by California regulatory decisions and to provide a new water supply for the approved redevelopment of the former Fort Ord area within Marina Coast Water District's Ord Community Service Area. Due to the nature of the project, the California Public Utilities Commission (the "CPUC") was considered the governmental oversight and approval agency.

Note 11 - Commitments and Contingencies (continued)

On April 5, 2010, Ag Land Trust ("ALT") filed a Petition of Writ of Mandate and Complaint for Declaratory Relief against the District in the Monterey Superior Court. In February 2012, the Superior Court found that the District violated the California Environmental Quality Act ("CEQA") and ordered the District to set aside its approval of a land purchase agreement and its project agreements with MCWRA and CAW, and to prepare a new Environmental Impact Report. In March 2012, ALT dismissed its remaining declaratory relief causes of action, and in April 2012, judgment was entered in favor of ALT on the CEQA claims. The District timely appealed the judgment to the Sixth Appellate District Court of Appeal. In February 2013, the superior court entered an order granting ALT an award of attorneys' fees in the amount of \$1.285 million. The District timely appealed the attorneys' fees order to the Sixth Appellate District Court of Appeal in a separate appeal. On August 26, 2013, the Sixth Appellate District issued an opinion declaring the case to be moot, reversing the superior court's judgment in favor of ALT, and ordering the superior court to dismiss the case. On October 4, 2013, ALT filed a petition for review in the California Supreme Court challenging the Sixth Appellate District's decision, and on October 22, 2013, the District filed an answer to the petition for review. On November 13, 2013, the California Supreme Court denied the petition for review. November 18, 2013, the Sixth Appellate District issued the remittitur, rendering the reversal of the judgment against the District final. On March 7, 2014, the superior court entered its order dismissing the Petition for Writ of Mandate as Moot. The attorneys' fees appeal is fully briefed before the Sixth District Court of Appeal and is scheduled to be orally argued before a panel of that Court on November 12, 2014. A decision is likely within the next few months. The District has not recognized a recovery amount, if any, in the accompanying financial statements related to the litigation until the appeals process has been exhausted and a final court decision has been made.

In July 2011, MCWRA declared that the RDP Agreements were invalid due to an alleged conflict of interest and repudiated the agreements. As a result of MCWRA's actions, CAW gave notice in September 2011 and January 2012 of its intent to withdrawal from the project. In July 2012, the CPUC issued a decision approving CAW's withdrawal from the project and stated that CAW may seek to recover RDP related costs from the District. No such claim has been made, nor has litigation commenced related to those costs.

On September 18, 2012, CAW presented a claim to the District related to project costs pursuant to the California Government Claims Act, Government Code Section 810. No range for the claim was provided, nor has a suit been filed for this claim.

Note 11 - Commitments and Contingencies (concluded)

On October 4, 2012, CAW filed an action against the District and MCWRA seeking a declaratory judgment, but no damages, concerning the validity of the RDP Agreements and the lawfulness of MCWRA's repudiation of the RDP Agreements. The District has filed a cross-complaint for declaratory relief, but no damages, against CAW and MCWRA. The District maintains that the RDP Agreements remain valid and enforceable under California law. None of these actions have been adjudicated.

CAW and MCWRA have presented written breach of contract and tort claims for damages against the District. In response, the District has presented claims for breach of contract and tort claims for damages against CAW and MCWRA.

The District intends to vigorously defend all claims and judgments against it, and actively pursue its position against all other parties. Based on the latest information, the District is unable to estimate a potential range of loss, or the likelihood of the outcome of litigation regarding these matters. However, if final judgments are made against the District, the losses, individually and in the aggregate, could have a material effect to the financial statements. Further, results of the actions could have a material effect on the carrying value of the capital assets and liabilities presented in the Statement of Net Position.

The assets, liabilities and net position of the RDP are represented in the Statement of Net Position, Proprietary Funds in Supplementary Information as the Regional Project fund. A summary is as follows:

Total assets	\$ 13,137,759
Total liabilities	10,684,260
Total net position	\$ 2,453,499

Note 12 - Subsequent Event

In June 2012, GASB issued Statement No. 68, Accounting and Financial Reporting for Pension Plans (an amendment of GASB Statement No. 27). This Statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expenses of pension plans. This statement identifies the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. Management is evaluating the impact of the adoption of this standard on the financial statements and believes that its impact, when adopted, may be substantial to the District. GASB Statement No. 68 will be implemented effective with the fiscal year 2014-2015 financial statements.

Adjustments to reconcile operating income to net cash provided (used) by operating activities:

ACTIVITIES:
Operating income

RECONCILIATION OF OPERATING INCOME (LOSS)

TO NET CASH PROVIDED (USED)BY OPERATING

(Increase) decrease in accounts receivable

Depreciation and amortization

(Increase) decrease in inventories (Increase) decrease in prepaid items

Increase (decrease) in customer deposits

(Increase) decrease in deposits

Increase (decrease) in accounts payable Increase (decrease) in accrued expenses

RECONCILIATION TO STATEMENT OF NET POSITION:

Cash and cash equivalents at end of year

Cash and cash equivalents Restricted cash and cash equivalents Increase (decrease) in compensated absences Increase (decrease) in other noncurrent liabilities Total adjustments

Net cash provided by operating activities

MARINA COAST WATER DISTRICT Statistical Section

This part of the District's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and supplementary information says about the District's overall financial health.

Contents

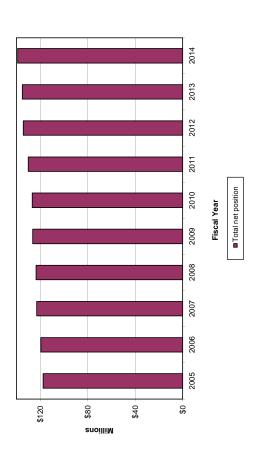

Financial Trends These schedules contain information to help the reader understand how the District's financial performance and well-being have changed over time.	44-46
Revenue Capacity These schedules contain information to help the reader assess the District's most significant revenue sources, water sales and wastewater collection.	47-50
Debt Capacity These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	51-52
Demographic Information This schedule offers demographic indicators to help the reader understand the environment within which the District's financial activities take place.	53-54
Operating Information These schedules contains service and infrastructure data to help the reader understand how the information in the District's financial report relates to the service the District provides.	55-56
