## ***Marina Coast Water District is Preparing to Update its Rates***

*Join us on December 18, as our independent finance consultant gives his first presentation to the Board of Directors to start the rate study.*

Marina, CA -- Marina Coast Water District has retained an independent rate consultant to assist the District in updating its five-year plan for water, recycled water, and sewer service charges to customers.

The updated rates will be designed to ensure the District receives adequate revenue to continue providing high-quality water and sewer services while remaining fair, reasonable, and proportional.

**Join us on December 18, as our independent rate consultant gives his first presentation to the Board of Directors.** The meeting will be held at 6:00 PM on Monday, December 18, at the Water District office at 920 2nd Avenue, Suite A, Marina. The public can also participate via Zoom at this [link](#) and using these codes: webinar: 845 8535 1458, passcode: 628311

During the meeting, the rate consultant will outline legal requirements for rate setting in California and provide details about this rate process and timeline.

This is the first opportunity for the Board of Directors and the public to learn about this rate-setting process.

**The district will be providing additional information as the rates are developed in the coming months** to ensure that the public is fully informed and has multiple opportunities to learn more, provide input, and have their questions answered.

Watch for more information via the District's regular e-newsletter ([sign up here](#)), social media, [website](#), and the press.

###

**About Marina Coast Water District:** The MCWD's mission is to provide customers with high-quality potable and recycled water, wastewater collection, and conservation services that are safe, affordable, reliable, and sustainable through planning, management, and development of water resources in an environmentally sensitive manner.
