Marina Coast Water District's Renewable Energy Achievements Recognized.

The Central Coast Community Energy recognizes District's 100% renewable energy use as 3CPrime certified in reducing carbon emissions.

Marina, CA —The Marina Coast Water District is proud to announce recognition by the Central Coast Community Energy provider for choosing 100% renewable energy and reducing carbon emissions.

Just One Part of a Comprehensive Climate Action Plan. Last summer, the District switched to 100% renewable energy as the first step of a comprehensive climate action plan to reduce environmental impacts. The goal was to cut the District's greenhouse gas emissions by over 50%, allowing the District to provide water and wastewater services more sustainably. The utilization of 3CE Green Energy has resulted in an estimated reduction of 305 Metric Tons of greenhouse emissions from District operation.

This 3Cprime certification confirms our commitment to sustainability through the planning, management, and development of water resources in an environmentally sensitive manner.
