I. INTRODUCTION

The Marina Coast Water District (District) is requesting proposals from qualified consulting firms to provide professional engineering, hydrogeologic, and regulatory services for the District's Sand Tank Indirect Potable Reuse (IPR) Project. The selected Consultant will prepare a Basis of Design Report (BODR), Title 22 Engineering Report, coordinate with applicable regulatory agencies, prepare the Report of Waste Discharge, and provide related permitting support necessary to advance the Project toward subsequent design and implementation.

The Consultant shall perform the tasks specified in this RFP and is encouraged to identify additions or modifications that would enhance or clarify the work. Any proposed modifications shall be clearly identified in the proposal.

II. BACKGROUND

The District is undertaking an IPR Project at the Sand Tank Site, identified as the recommended alternative in the District's IPR Feasibility Report (EKI, 2022). The Project is anticipated to utilize advanced-treated water from Monterey One Water's Advanced Water Purification Facility. The proposed Project has a design flow of approximately 1.37 mgd. The work under this RFP is intended to establish the technical basis for permitting and subsequent design and to support DDW and RWQCB regulatory review.

Other program elements, including CEQA documentation, stakeholder coordination, funding and financing, supply strategy and negotiations, legal services, detailed design, and construction, may be performed separately by the District, other consultants, or project partners.

III. SCOPE OF SERVICES

The District is seeking a qualified Consultant to provide professional engineering and regulatory services necessary to advance the Sand Tank Indirect Potable Reuse (IPR) Project through basis of design and applicable regulatory review and permitting.

The scope is generally organized around the three primary work areas described below. The District expects proposing firms to use their experience with indirect potable reuse, groundwater replenishment, and applicable regulatory requirements to develop and recommend an appropriate approach, scope, and sequence of work necessary to successfully complete the Project.

Proposers should identify any additional studies, analyses, coordination, or supporting work they believe will be necessary to complete the requested services.

1. Basis of Design Report

Prepare a Basis of Design Report (BODR) sufficient to establish the technical basis for subsequent design, regulatory review, and implementation of the Sand Tank IPR Project.

The Consultant should review available District and project information, identify significant information or data gaps, and perform the engineering and technical evaluations necessary to develop the BODR.

The BODR should address, as appropriate, the proposed project configuration and facilities, existing infrastructure, design criteria, hydraulic considerations, facility alternatives and recommended configuration, operational considerations, regulatory requirements affecting design, planning-level project costs, implementation schedule, and other technical considerations necessary to advance the Project into subsequent design.

The Consultant should identify any additional investigations or information that may be required to support subsequent design or regulatory approval.

2. Regulatory Permitting and Agency Coordination

Provide regulatory coordination and permitting support necessary to advance the Project through the applicable regulatory review process.

The Consultant shall coordinate, as appropriate, with the State Water Resources Control Board Division of Drinking Water (DDW), Regional Water Quality Control Board (RWQCB), and other applicable regulatory agencies.

The work should include early coordination with regulatory agencies to confirm the anticipated regulatory pathway, technical information requirements, and major regulatory considerations affecting the Project.

The Consultant shall support the technical information necessary to assist District coordination with Monterey County, the U.S. Army/BRAC Cleanup Program, and other applicable agencies regarding the proposed injection well and any associated monitoring or test wells. The District will lead coordination with Monterey County and the U.S. Army/BRAC Cleanup Program, with the Consultant providing technical support, presentations, analyses, and responses to agency comments as necessary. Agency input shall be incorporated into the BODR, Title 22 Engineering Report, permitting strategy, and subsequent project recommendations, as appropriate.

The proposed Sand Tank IPR Project is located on the former Fort Ord and may be subject to groundwater well construction restrictions, land-use controls, and

requirements associated with ongoing environmental remediation activities. The Consultant shall evaluate applicable constraints and develop the technical information necessary to support regulatory review and facilitate coordination with affected agencies. Recommendations shall identify potential permitting challenges, data gaps, and measures necessary to advance the project through design, regulatory approval, and implementation.

The Consultant shall prepare and support the regulatory applications and documentation necessary for the Project, including the Report of Waste Discharge and supporting information required for RWQCB review.

The Consultant shall support the District through agency review, including responding to comments and identifying regulatory or permit conditions that may affect subsequent project design, operation, or monitoring.

3. Title 22 Engineering Report

Prepare the Title 22 Engineering Report and supporting technical documentation necessary for regulatory review and approval of the proposed IPR Project.

The Consultant shall determine and perform the analyses necessary to satisfy applicable Title 22 requirements and DDW and RWQCB review.

The work is anticipated to include evaluation and documentation of groundwater and hydrogeologic conditions, retention-time considerations, monitoring requirements, log-removal value requirements, source and advanced-treated water information, proposed groundwater replenishment facilities, and other technical information required by the regulatory agencies.

The Consultant shall coordinate development of the Title 22 Engineering Report with the BODR and permitting activities so that the documents are technically consistent and can support subsequent project design.

The Consultant shall prepare appropriate draft and final documents and provide support during District and regulatory agency review.

Consultant's Proposed Approach

The descriptions above are intended to identify the District's primary objectives and anticipated work products and are not intended to prescribe the Consultant's specific methodology.

Proposers shall provide a detailed proposed scope of work identifying the tasks, technical analyses, regulatory coordination, meetings, deliverables, schedule,

assumptions, and level of effort they recommend to successfully complete the BODR, Title 22 Engineering Report, and regulatory permitting services.

Proposers should clearly identify:

- Significant data or information needs.
- Recommended regulatory coordination and agency meetings.
- Anticipated technical studies or analyses.
- Assumptions used in developing the proposed scope and fee.
- Work that is specifically excluded from the proposal or recommended for a subsequent phase.

Unless otherwise proposed and authorized by the District, CEQA documentation, detailed design and construction documents, new monitoring well installation, test borings, aquifer pump testing, and implementation of tracer studies are not anticipated to be included in the base scope of services.

IV. PROJECT ASSUMPTIONS AND EXCLUSIONS

- CEQA documentation is not included in the base scope.
- Detailed design and construction documents are not included in the base scope.
- The District will provide reasonably available existing data, reports, GIS information, plans, and staff availability.

Consultant shall pay and satisfy any judgment, award or decree that may be rendered against the District or any of its directors, officers, employees, or authorized volunteers, in any and all such aforesaid suits, actions, or other legal proceedings.

Consultant shall reimburse District and its directors, officers, employees or authorized volunteers, for any reasonable legal expenses and costs incurred by each of them in connection with, in any way, all such aforesaid suits, actions or other legal proceedings or in enforcing the indemnity herein provided, to the extent that they are covered by the above obligations to indemnify.

Consultant's obligation to indemnify shall not be restricted to insurance proceeds, if any, received by the District, or its directors, officers, employees or authorized volunteers.

GENERAL CONDITIONS

Laws, Regulations and Permits - The Consultant shall give all notices required by law and comply with all laws, ordinances, rules and regulations pertaining to the conduct of the work. The Consultant shall be liable for all violations of the law in connection with work furnished by the Consultant. Consultant shall maintain such coverage continuously for a period of at least three years after the completion of the contract work. Consultant shall purchase a one-year extended reporting period i) if the retroactive date is advanced past the effective date of this Agreement; ii) if the policy is canceled or not renewed; or iii) if the policy is replaced by another claims-made policy with a retroactive date subsequent to the effective date of this Agreement.
2. Insurance Services Office Commercial **General Liability** Coverage (Occurrence Form CG 0001)

1. **Professional Liability** – Limits no less than One million dollars (\$1,000,000) per occurrence or claim, and Two million dollars (\$2,000,000) policy aggregate. **[NOTE: THIS VALUE SHOULD BE ADJUSTED BASED ON VALUE OF PROJECT. UPPER RANGE IS ESTIMATED AT \$5,000,000 WHICH WOULD BE FOR LARGER CONSTRUCTION PROJECTS, E.G., STORAGE TANKS, TREATMENT FACILITIES, LARGE PUMP/LIFT STATIONS.]**
2. **General Liability** - Two million dollars (\$2,000,000) per occurrence for bodily injury, personal injury and property damage. If Commercial General Liability Insurance or other form with a

general aggregate limit or products-completed operations aggregate limit is used, either the general aggregate limit shall apply separately to the project/location (with the ISO CG 2503, or ISO CG 2504, or insurer's equivalent endorsement provided to the District) or the general aggregate limit and products-completed operations aggregate limit shall be twice the required occurrence limit.

3. ***Automobile Liability*** - Two million dollars (\$2,000,000) for bodily injury and property damage each accident limit.

If the Consultant maintains broader coverage and/or higher limits than the minimums shown above, the Member Water Agency requires and shall be entitled to the broader coverage and/or higher limits maintained by the Consultant. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the District.

Required Provisions - The general liability policy is to contain, or be endorsed to contain the following provisions:

1. The District, its directors, officers, employees, or authorized volunteers are to be given additional insured status (via ISO endorsement CG 2010 10 01, or insurer's equivalent for general liability coverage) as respects: liability arising out of activities performed by or on behalf of the Consultant; and premises owned, occupied or used by the Consultant. The coverage shall contain no special limitations on the scope of protection afforded to the District, its directors, officers, employees, or authorized volunteers.
2. For any claims related to this project, the Consultant's insurance shall be primary insurance at least as broad as ISO CG 20 01 04 13 as respects the District, its directors, officers, employees, or authorized volunteers. Any insurance, self-insurance, or other coverage maintained by the District, its directors, officers, employees, or authorized volunteers shall not contribute to it.
3. Any failure to comply with the reporting or other provisions of the policies including breaches and warranties shall not affect coverage provided to the District, its directors, officers, employees, or authorized volunteers.
4. The Consultant's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.

Such liability insurance shall indemnify the Consultant and his/her sub-consultants against loss from liability imposed by law upon, or assumed under contract by, the Consultant or

his/her sub-consultants for damages on account of such bodily injury (including death), property damage, personal injury, completed operations, and products liability.

The general liability policy shall cover bodily injury and property damage liability, owned and non-owned equipment, blanket contractual liability, completed operations liability, explosion, collapse, underground excavation and removal of lateral support.

The automobile liability policy shall cover all owned, non-owned, and hired automobiles.

The policies specified above shall state, or be endorsed to state, that coverage shall not be canceled by the insurance carrier or the Consultant, except after thirty (30) days (10 days for non-payment of premium) prior written notice by U.S. mail has been given to the District.

All of the insurance shall be provided on policy forms and through companies satisfactory to the District.

In the event any change is made in the insurance carrier, scope of coverage or retroactive date of professional liability coverage required under this agreement, Consultant shall notify the District prior to any changes.

1. **Workers' Compensation and Employer's Liability Insurance** - The Consultant and all sub-consultants shall cover or insure under the applicable laws relating to workers' compensation insurance, all of their employees employed directly by them or through sub-consultants in carrying out the work contemplated under this contract, all in accordance with the "Workers' Compensation and Insurance Act," Division IV of the Labor Code of the State of California and any Acts amendatory thereof. The Consultant shall provide employer's liability insurance with limits no less than \$1,000,000 each accident, \$1,000,000 disease policy limit, and \$1,000,000 disease each employee. **Waiver of Subrogation:** The insurer(s) named above agree to waive all rights of subrogation against the District, its directors, officers, employees, and authorized volunteers for losses paid under the terms of this policy which arise from work performed by the Named Insured for the Agency; but this provision applies regardless of whether or not the District has received a waiver of subrogation from the insurer.

Deductibles and Self-Insured Retentions - Any deductible or self-insured retention exceeding \$50,000 must be declared to and approved by the District. At the option of the District, the insurer shall either reduce or eliminate such deductibles or self-insured retention.

Acceptability of Insurers - Insurance is to be placed with insurers having a current A.M. Best rating of no less than A:VII or equivalent or as otherwise approved by the District.

MEC Coverage – For work involving portions of the former Fort Ord outside the cantonment area, all insurance maintained by Consultant shall include coverage for services, work in or around MEC, or claims, damage or injury related in any way to this Agreement which arise from MEC. The Marina Coast Water District, its officers, directors

and employees and any of its authorized representatives and volunteers shall be named as additional insureds under all insurance maintained by Consultant related in any way to work performed by it on behalf of the Marina Coast Water District.

Evidences of Insurance - Prior to execution of the Agreement, the Consultant shall file with the District a certificate of insurance (Acord Form 25-S or equivalent) signed by the insurer's representative evidencing the coverage required by this Agreement. Such evidence shall include the additional insured endorsements. Such evidence shall also include confirmation that coverage includes or has been modified to include Required Provisions. However, failure to obtain the required documents prior to the work beginning shall not waive the Consultant's obligation to provide them.

The Consultant shall, upon demand of the District, deliver to the District such policy or policies of insurance and the receipts for payment of premiums thereon.

All insurance correspondence, certificates, binders, etc., shall be mailed to:

Marina Coast Water District
920 2nd Avenue, Suite A
Marina, CA 93933
Attn: Engineering Department

Continuation of Coverage – If any of the required coverages expire during the term of this Agreement, the Consultant shall deliver the renewal certificate(s) including the general liability additional insured endorsement to the District at least ten (10) days prior to the expiration date.

Sub-Consultants - In the event that the Consultant employs other consultants (sub-consultants) as part of the services covered by this Agreement, it shall be the Consultant's responsibility to require and confirm that each sub-consultant meets the minimum insurance requirements specified above.
